Re: Recommendation letter for Cao Hung Le

To Whom It May Concern,

I am delighted to recommend Cao Hung Le. As the CEO of Truth, I have had the pleasure of witnessing Cao's admirable growth and his impact on our technology solutions.

Innovative Contributions: Cao has been instrumental in designing and building a State-of-the-Art solution to detect falsified identity documents. He has customised AI models to our specific use case, and has transformed our ability to detect fraudulent identity documents from across the globe.

Professional Growth: Cao's dedication to professional development is evident in his continuous pursuit of knowledge and application of the latest technologies in our operations.

Impact on the Business: Cao's contributions have directly impacted our bottom line by enabling us to support new clients beyond Australia, positioning Truth as a global leader in identity verification.

Adaptability and Problem-Solving: Cao faced several technical challenges in refining existing solutions for document fraud detection, and he demonstrated exceptional problem-solving abilities that resulted in an innovative approach that is now a great asset and competitive differentiator for Truth.

Cao's blend of technical expertise, leadership, and commitment to diversity makes him an outstanding candidate for any prospective employer. I strongly support his application and am excited about his potential to further excel in his chosen field.

Sincerely,

A handwritten signature in black ink, appearing to read "MSimpson", with a stylized flourish at the end.

Mike Simpson

CEO, Truth
